# SAP BUSINESS ALL-IN-ONE

**Proven and tailored SAP industry solutions which can be deployed quickly and risk free.**

Our industry solutions are based on working many years in your industry on national, as well as international projects. This led to our special expertise in automotive supplier and component manufacturer enterprises. We can focus on the little details which are typically the decisive difference to be successful in ERP deployments.

Profit from our All-in-one solutions through short implementation cycles by deploying optimized best practices, templates and pre-configuration executed by an effective team with clear goals and methods.

**Our team of experts supports companies from the following industries:**

- Automotive Suppliers – pmcNavigate Automotive
- Metal Processing –pmcNavigate Metals
- Component Manufacturing – pmcNavigate IM&C

**Fast and effective implementation**

Our industry solutions are well positioned for companies who are looking for a powerful and complete solution. Our keystone implementation method accompanies the team during the deployment and ensures high level of acceptance among users and quick project success. Needless to mention, the implementation minimizes interruption to your production capabilities

**Full Solution**

The end user experience is one of the main goals of our implementation. This results in high acceptance of the full ERP Processes. It is a full solution because we implement the business processes along with EDI, Scanning and Barcode Labeling and Forms. All processes work together automatically and smoothly due to a broad range of functions and seamlessly integrated data.

Our solution represents sales, development, procurement, manufacturing, quality management, and shipping as well as finance and costing. Additional value is provided by Performance Management reporting tools and KPI Management.

**Organizational Change Management**

A topic which typically gets ignored at all. Our keystone method provides OCM at the right time to prepare you for your new adventure.
